- -- Exceeds high end of guidance on revenue, adjusted EBITDA, and gross profit margin in the first quarter --
 - -- Raises full-year guidance for adjusted EBITDA and gross profit margin --
 - -- Expects positive cash flow in the fourth quarter --

NEW YORK, May 9, 2022 -- LivePerson, Inc. (NASDAQ: LPSN) ("LivePerson" or the "Company"), a global leader in conversational AI, today announced financial results for the first quarter ended March 31, 2022.

First Quarter Highlights

Total revenue was \$130.2 million for the first quarter of 2022, an increase of 21% as compared to the same period last year. Within total revenue, business operations revenue for the first quarter of 2022 increased 22% year over year to \$121.1 million, and revenue from consumer operations increased 1% year over year to \$9.1 million.

LivePerson signed five seven-figure deals and 102 deals in total in the first quarter, comprising 26 new and 76 existing customer contracts. Trailing-twelve-months average revenue per enterprise and mid-market customer increased 32% in the first quarter to another record high of \$645,000, up from approximately \$490,000 in the comparable prior-year period.

"LivePerson had a very strong quarter, beating both top and bottom line guidance. We continued to see robust platform usage, with Conversational Cloud volume growing 34% year-over-year for AI based messaging conversations and 27% year-over-year for total messaging conversations. These achievements illustrate strength across the business and are clear proof points of execution on our key strategic priorities, including our profitable growth plan, which we announced at the beginning of the year," said founder and CEO Robert LoCascio. "These results are a credit to our people, and I am very proud of the talent, commitment and great work of our global team. We are confident that our laser focus on key priorities will help us maintain our industry-leading position and strategically deploy capital to generate stockholder value."

"Our first quarter results demonstrate progress on our strategy to accelerate profitable growth. Revenue and adjusted EBITDA both exceeded the top end of our guidance, as we began to optimize our cost structure and go-to-market strategy, including realizing post-acquisition cost and revenue synergies. With such strong execution, we are improving our full year 2022 guidance for adjusted EBITDA and gross profit margin, and we expect to see positive cash flow in the fourth quarter of 2022," added CFO John Collins.

During the first quarter, the Company signed contracts with the following new customers:

- A leading American designer and manufacturer of bicycles and related products
- One of the top 5 online travel aggregators in the world

Net Loss and Adjusted Operating (Loss) Income

Net loss for the first quarter of 2022 was \$(65.4) million or \$(0.86) per share, as compared to a net loss of \$(21.2) million or \$(0.31) per share in the first quarter of 2021. Adjusted operating loss, a non-GAAP financial measure, for the first quarter of 2022 was \$(24.9) million, as compared to an adjusted operating income of \$6.7 million in the first quarter of 2021. Adjusted operating (loss) income excludes amortization of purchased intangibles, stock-based compensation, restructuring costs, other litigation and consulting costs, contingent earn-out adjustments, acquisition costs, interest expense, net, and other income, net.

A reconciliation of non-GAAP financial measures to GAAP measures has been provided in the financial tables included in this press release. An explanation of the non-GAAP financial measures and how they are calculated is included below under the heading "Non-GAAP Financial Measures."

Adjusted EBITDA

Adjusted EBITDA, a non-GAAP financial measure, for the first quarter of 2022 was \$(17.6) million as compared to \$13.3 million in the first quarter of 2021. Adjusted EBITDA excludes amortization of purchased intangibles, stock-based compensation, contingent earn-out adjustments, restructuring costs, depreciation, other litigation and consulting costs, benefit from income taxes, acquisition costs, interest expense, net, and other income, net.

Cash and Cash Equivalents

The Company's cash balance was \$480.7 million at March 31, 2022, as compared to \$521.8 million at December 31, 2021.

Financial Expectations

The following forward-looking measures and the underlying assumptions involve significant known and unknown risks and uncertainties, and actual results may vary materially from these forward-looking measures. The Company does not present a quantitative reconciliation of the forward-looking non-GAAP financial measures, adjusted EBITDA, adjusted EBITDA margin, and non-GAAP gross margin to the most directly comparable GAAP financial measures (or otherwise present such forward-looking GAAP measures) because it is impractical to forecast certain items without unreasonable efforts due to the uncertainty and inherent difficulty of predicting, within a reasonable range, the occurrence and financial impact of and the periods in which such items may be recognized. In particular, these non-GAAP financial measures exclude certain items, including amortization of purchased intangibles, stock-based compensation, depreciation, other litigation and consulting costs, restructuring costs, contingent earn-out adjustments, benefit from income taxes, interest income (expense), and other expense (income), which depend on future events that the Company is unable to predict. Depending on the size of these items, they could have a significant impact on the Company's GAAP financial results.

With regard to the top line, the Company is reaffirming a 2022 revenue guidance range of \$544.8 million to \$563.3 million, or 16.0% to 20.0% growth year-over-year. The revenue guidance range for the second quarter is \$132.5 million to \$135.5 million, or 11.0% to 13.0% growth year-over-year.

With the strong results of the first quarter demonstrating early signs of building leverage in the business and the Company's commitment to execution on its profitable growth strategy, the Company is raising its 2022 adjusted EBITDA guidance to a range of \$1.0 million to \$10.0 million, or a 0.0% to 2.0% adjusted EBITDA margin, up from prior guidance of \$(20.0) million to \$0.0 million, or a (3.7)% to 0.0% adjusted EBITDA margin. The Company is guiding for second quarter adjusted EBITDA in a range of \$(9.5) million to \$(5.5) million or a (7.2)% to (4.1)% adjusted EBITDA margin.

The Company's detailed financial expectations are as follows:

Second Quarter 2022

	Guidance
Revenue (in millions)	\$132.5 - \$135.5
Revenue growth (year-over-year)	11.0% - 13.0%
